

**SKILLS** JavaScript, Python, Node.js, React, Redux, Express.js, Flask, SQL, PostgreSQL, Sequelize, SQLAlchemy, HTML 5, CSS 3, Alembic, Pair Programming

## PROJECTS

png | *React / Redux, JavaScript, Express.js, Node.js, PostgreSQL, Sequelize, AWS S3, HTML, CSS*

[live](#) | [github](#)

- Incorporated **AWS S3** for enhanced user image uploads on a form where there are two input fields for images
- Applied protected routes using **React** hooks, redirecting users to secure paths based on user credentials

Memestagram | *React / Redux, Python, Flask, PostgreSQL, AWS S3, HTML, CSS*

[live](#) | [github](#)

- Integrated followers/following MVP feature to allow users to follow one another and view their posts
- Incorporated **AWS S3** for enhanced user uploads for posts on the application
- Coordinated and communicated with team members to maximize efficiency to complete MVP features
- Built and designed database schema for enhanced coding and group work efficiency

Oppar | *React / Redux, JavaScript, Express.js, Node.js, PostgreSQL, Sequelize, HTML, CSS*

[live](#) | [github](#)

- Ensured user privacy by utilizing **Bcrypt** to hash user passwords prior to storing them in the database
- Constructed user authorization routes to restrict access
- Leveraged **Redux** to create a single page web app by utilizing states throughout a user's session to dynamically render **React** components without refreshing
- Implemented AJAX to fetch API routes from the backend to interact with the database

## EXPERIENCE

Pharmacy Intern

LAC + USC Medical Center

May 2021 – Aug 2021

- Filled and dispensed upwards of 100 medications daily under an intense, and fast-paced work environment
- Compounded upwards of 50 sterile and non-sterile drugs during IV room shifts
- Collaborated with pharmacy and medical personnel to ensure quality patient care

Medical Assistant

Henry Tsai MD

Feb 2017 – Feb 2021

- Assisted upwards of 30 patients daily with medical questions, updating patient charts, appointment scheduling, and insurance inquiries
- Processed and troubleshooted rejected insurance claims
- Coordinated timely patient care with other physicians, nurses, and lab staff
- Supported the doctor during pap smears, colposcopies, endometrial biopsies, and other gynecology surgical procedures

## EDUCATION

University of Southern California | *PharmD, 2020-2021*

California State University, Long Beach | *BA Biology, 2016-2019*

App Academy | 1000 hour immersive web development program with < 3% acceptance rate, 2021-2022
